

JI project cycle:

Registration at JISC

Climate Change & Business
Kyiv, 21 - 22 November 2007

Lennard de Klerk
Global Carbon BV

Global Carbon B.V.

Global Carbon B.V. is an international consultant and broker with an exclusive focus on **JI projects**.

Subsidiaries based in The Hague, Budapest, Sofia, Kyiv, Donetsk and Moscow with currently **16 JI professionals** active in steel, cement, CMM and energy projects.

Portfolio of 20 JI projects with reduction of **35 million tCO₂e**.

On the front lines of JI!

JI Project Design Documents: **Project specific** methodologies developed in cement and steel

First **final determination**: Ever first JI project registered at UNFCCC: JI 0001 “Switch from wet-to-dry process at Podilsky Cement”

Pre-monitoring completed for four projects

First Ukrainian **verification**: Monitoring and verification completed for 2004 – 2006 of project “Utilization of CMM at the Mine named after A.F. Zasyadko”

What is registration?

The last step under **Track 2** is registration of the project at the JI Supervisory Committee (JISC). This step is called “making the determination **final**”

The Determinator has to submit:

1. PDD plus annexes
2. Final determination Report
3. Letter of Approval (at least of Host Country)
4. Modalities of communication

Fees

Registration fee is calculated over the average annual reduction:

- 0.10 USD/ERU over the first 15,000 ERUs
- 0.20 USD/ERU over the following 15,000 ERUs

With a maximum of 350,000 USD

Only after **proof** of payment has been received, the project will be accepted and made public on the JI website

Review

All submitted documents will be made public on the JI website for 45 days.

Two experts will look at the documents and will advise the two leading JISC members on their findings

If **three** or more JISC members ask for a review, a review procedure is started.

Additional information/clarification have to be submitted and in the next JISC meeting, the project will then be discussed and a decision will be taken

JISC

Members:

- Three members of Annex I countries not in transition
- Three members of Annex I countries in transition
- Three members of non-Annex I countries
- One member of small island states

Current issues:

- How to deal with project proving **additionality** other than using the CDM “Tool for the demonstration of additionality“?
- How to deal with projects not using a CDM methodology for **baseline setting**?
- How to deal with **Methane leakage** project in gas distribution sector?

Contacts

Our focus is on **good industrial** JI projects in the steel, cement, CMM and energy sector that will **deliver!**
